## **Chemistry**

Chemistry. It's the core science: the study of the properties, composition and changes that occur in matter. When you study chemistry, you analyze issues that influence every aspect of life on Earth.

Whether you choose the bachelor of science degree (for those targeting careers in industry or planning to pursue a graduate degree) or the bachelor of arts degree (appropriate for those seeking work in medicine, dentistry or secondary school teaching), Cal Lutheran's chemistry curriculum provides the knowledge base required of the discipline.

Because of the program's strong emphasis on laboratory experience, our advanced chemistry students are taught how to design and carry out their own experiments and encouraged to work on independent research projects. They also have the opportunity to do supported research with faculty members during the summer. Many students have been accepted to summer research programs at Ph.D.-granting institutions.

The department possesses modern instruments which students use regularly in their classes and research projects. These include:

- · Fourier transform infrared and nuclear magnetic resonance spectrometers
- · gas chromatographs with several types of detectors
  - · mass spectrometer
  - · electron capture
  - · flame ionization
- · rapid-scan UV-vis spectrometer

Cal Lutheran chemistry students are encouraged to pursue internships and REU programs during the course of their studies. Recent Cal Lutheran students have interned at Ventura County Crime Lab, Amgen and Rockwell Science Center, and have attended REU programs at Colorado State and SUNY Stoneybrook.

These undergraduate research opportunities translate into success for Cal Lutheran's chemistry graduates, who have been accepted into many of the nation's most respected medical, dental, and graduate programs including:

- · University of California at
  - San Diego
  - Irvine
  - · Santa Barbara
- Yale University
- Indiana University
- University of Ohio

## **Bachelor of Arts in Chemistry**

32 credits minimum, 20 credits upper division

| CHEM 151   | General Chemistry                                   | 4  |
|--|---|----|
| CHEM 151L  | General Chemistry Lab                               | 1  |
| CHEM 152   | General Chemistry II                                | 4  |
| CHEM 152L  | General Chemistry II Lab                            | 1  |
| CHEM 305/305L  | Quantitative Analysis and Quantitative Analysis Lab | 4  |
| CHEM 331   | Organic Chemistry                                   | 4  |
| CHEM 332   | Organic Chemistry II                                | 4  |
| CHEM 341   | Organic Chemistry Lab                               | 1  |
| CHEM 342   | Organic Chemistry II Lab                            | 1  |
| CHEM 485   | Capstone Seminar                                    | 2  |
| Chemistry Elective Credits (at least 4 Upper Division) |   | 6  |
| Total Hours  |   | 32 |

## Required Supporting Courses

Select one of the following: 8-10

PHYS 201/201L/202/202L Mechanics and Thermodynamics-Algebra and Mechanics and Thermodynamics-Algebra Lab and Electricity, Magnetism, Optics - Lab

| PHYS 211/211L/212/212L            | Mechanics and Thermodynamics-Calculus and Mechanics and Thermodynamics-Lab and Electricity, Magnetism, and Optics -ýCalculus and Electricity, Magnetism Optics - Lab   |       |
|-----------------------------------|--|-------|
| MATH 251                          | Calculus I   | 4     |
| Total Hours                       |  | 12-14 |
| Recommended                       |  |       |
| MATH 252                          | Calculus II  | 4     |
| Total Hours                       |  | 4     |
| Bachelor of Science               | e in Chemistry   |       |
| 40 Credits minimum, 28 credits up | -  |       |
| CHEM 151                          | General Chemistry  | 4     |
| CHEM 151L                         | General Chemistry Lab  | 1     |
| CHEM 152                          | General Chemistry II   | 4     |
| CHEM 152L                         | General Chemistry II Lab   | 1     |
| CHEM 305/305L                     | Quantitative Analysis and Quantitative Analysis Lab  | 4     |
| CHEM 306/306L                     | Chemical Instrumentation and Chemical Instrumentation Lab  | 4     |
| CHEM 331                          | Organic Chemistry  | 4     |
| CHEM 332                          | Organic Chemistry II   | 4     |
